SLOs

IC C075: This course has 5 SLOs. The students successfully met all of them; however, the department decided to revise the SLOs based on the assessment process. Certain SLOs were not worded to adequately capture the type of learning desired. For example, the SLO “write complete bibliographic citations” was changed so that students are also able to recognize correct documentation in parenthetical citations. Also, it became apparent that the department needs to standardize certain teaching approaches so that all SLOs are covered in a similar fashion.
